

Coordinated Entry System

The Coordinated Entry System stitches existing programs together into a no-wrong-door system, connecting homeless adults to the best resource for them.

- Ensuring every homeless individual is known by name
- Assisting based on their unique needs
- Matching based on the right housing fit

Without CES

Dead ends, closed doors

Endless intakes, applications, and waiting lists

First come, first served

Each organization doing it all

With CES

Seamless Connections

1 survey that connects to real-time housing opportunities

Best fit, housing match

Each organization doing what they do best

Covers **8**
ALL
LA County
regions
engaging **200**
community organizations

Coming together is a beginning...

Coordinated Entry System launched with a successful pilot in Skid Row. It helped double participation in outreach and navigation efforts, and created more seamless connections between agencies. At the 200-day celebration, staff from public and private partners reflected on the difference:

"After years of working on Skid Row, I finally feel like we are working together...It used to take me 2 years to house my most vulnerable clients. With CES, it took me 6 months." - Gina Jones (Los Angeles Christian Health Centers)

"True systems coordination is occurring for the most vulnerable." -Eunyoung Cho (Los Angeles Homeless Services Authority)

With the conclusion of the pilot and the beginning of countywide CES operations, the community continues to collaborate to increase the speed and efficiency with which we house our homeless neighbors.
